Prof. J. Lederberg  
Stanford University, School of Medicine  
300 Pasteur drive, Palo Alto  
California 94304, USA

Dear Professor Lederberg:

As I already informed you, the Organizing Committee of the XIV International Congress on Genetics, which will be convened in Moscow, August 21-30, 1978, entrusted me with organization of a Symposium on Genic (Genetic) Engineering.

The Symposium will consist of two sessions, each including 7-8 papers.

By this letter I officially invite you to be Chairman of the Symposium. I will be Co-Chairman.

I trust that such cooperative conduction of the sessions will prove to be very fruitful. I have also approached the following persons asking them to present papers at the Symposium: Prof. Dr. H. W. Boyer, Drs. R. Davis, K. Murray, S. N. Coen, D. S. Hogness, P. Berg, F. E. Young, N. Sueoka, D. Helinski, R. D. Hotchkiss, W. Klingmüller, V. N. Krylov, V. G. Debabov, V. I. Tanyashin.

In case of your consent to be the Chairman of the Symposium will you inform me at your earliest convenience.

Any comments on your part in connection with the list of invited persons will be appreciated.

Looking forward to meeting you in Moscow.

With cordial regards,

*S. I. Alikhanian*

S. I. Alikhanian  
Professor

no 6/20/77  
P.S.

Will you answer at your earliest convenience to the address:

Prof. S. I. Alikhanian
